Smart CFOD06Q — HEPA Filtration Module

The Smart CFOD06Q is a portable HEPA filtration module packaged in a protective galvanized handling frame. The enclosed cabinet has latched access doors, directional airflow markings and a covered round duct connection. The gallery shows two genuine CFOD06Q reference units, including a readable model badge.

CFOD06Q exact-model badge and filter cabinet — reference unit 306104
CFOD06Q duct connection and lifting frame — second reference unit 306107
