D&D Machine & Hydraulics 800DSK / 96-gpm, 2,500-psi diesel skid

D&D 800DSK - Diesel Hydraulic Power Unit

Source: Manufacturer product page

Selected hydraulic package

Manufacturer	**D&D Machine & Hydraulics**
Model	**800DSK**
Configuration	**Diesel hydraulic power unit on steel skid**
Hydraulic output reference	**96 US gal/min at 2,500 psi; supplier 800DSK reference**
Hydraulic pump	**Vane type; selected supplier package description**
Drive arrangement	**Direct drive; D&D power-unit family design**

Reservoirs and controls

Hydraulic reservoir	**180 US gal; supplier 800DSK reference**
Fuel tank	**270 US gal; supplier 800DSK reference**
Control arrangement	**Centralized controls and gauges; D&D power-unit family design**
Starting and stopping	**Manual unloading valve for unloaded start / stop; family design**
Engine / hydraulic shutdowns	**Low hydraulic oil, high hydraulic-oil temperature, low engine oil pressure and high engine temperature; family design**
Filtration	**Hydraulic suction strainer, return filter and tank breather; family design**

Reference configuration

Source scope	**800DSK diesel-skid references; engine make and output vary by build**
Manufacturer documentation	**Request operating instructions and engine-specific documentation by actual unit serial**
