Milwaukee 4203

Milwaukee 4203 Adjustable Electromagnetic Drill Stand

Source: Manufacturer product page

Mounting & adjustment

Stand type	**Adjustable-position electromagnetic base**
Application	**Compatible Milwaukee electromagnetic drill motors**
Front-to-back adjustment	**3/4 in**
Side-to-side angular adjustment	**20 deg right or left of center**
Minimum workpiece thickness	**1/2 in, flat ferrous material**

Power & control

Voltage	**120 V AC only**
Maximum system current rating	**12.5 A**
Motor speed control	**Variable speed with electronic feedback**
Switching	**Solid-state electronic**
Motor/magnet control	**Interlock**
Power-restoration response	**Line lockout**
Magnet release	**Automatic base/chip demagnetization**
Motor starting	**Electronic soft start**
