MSA Rescuer 10158178 - 50 ft Stainless-Cable Fall Arrest and Retrieval Unit

The MSA 10158178 Rescuer combines self-retracting fall arrest with an integral bidirectional retrieval mechanism. Its 50-foot stainless steel cable, folding crank and mounting bracket support personnel retrieval from a compatible confined-space anchorage system.

Manufacturer	MSA Safety
Model	MSA Rescuer SRL-R / 10158178
Part number	10158178
Line material	Stainless steel cable
Line length	50 ft / 15 m
Line diameter	3/16 in. / 5 mm
ANSI personnel capacity	130-310 lb including clothing and tools
OSHA-only personnel capacity	75-400 lb including clothing and tools
ANSI classification	ANSI Z359.14-2021 Class 1, per current factory manual and model label
Maximum free fall	2 ft / 0.6 m
Maximum arresting force	1,800 lb
ANSI arrest distance	42 in. maximum
OSHA arrest distance	54 in. maximum
Retrieval	Bidirectional lifting/lowering with folding crank
Housing	Aluminum with protective bumpers
Connector	Swivel snap hook with load indication
Identification	RFID-enabled
