Manufacturer	Rice Hydro
Model	EL2
Maximum test pressure	1,000 PSI
Published flow	1.5 GPM
Pump design	Triplex plunger, oil bath
Motor	1 HP, totally enclosed fan cooled
Electrical options	110/220 V, single phase, 50/60 Hz; match motor nameplate
Outlet hose	8 ft, 3/8 in. high pressure
Pressure regulator	100-1,000 PSI, factory product page
Gauge	Stainless steel, liquid filled
Frame	Protective roll cage
Motor protection	Manual thermal overload
Dimensions	22 x 14 x 14 in.
Pump weight	85 lb
Liquid requirements	Clean water; do not run dry or pump chlorine per factory instructions
