Rice Hydro MTP-5 - 500 PSI manual hydrostatic test pump

500 PSI manual hydrostatic test pump. The MTP-5 uses a hand lever and dual check valves to pressurize small-diameter water lines while limiting pressure bleed-back.

Rice Hydro MTP-5 factory model specifications
Rice Hydro MTP Series - Factory Assembly and Operating Instructions (PDF)

Manufacturer	Rice Hydro
Model	MTP-5
Maximum test pressure	500 PSI
Drive	Hand lever
Check valve system	Dual checks to prevent water bleed-back
Outlet hose	3/8 in. high pressure, 8 ft
Gauge scale	0-600 PSI
Gauge construction	Stainless steel, liquid filled
Pump weight	12 lb
Dimensions	18 x 17 x 15 in.
Test isolation	Outlet ball valve
Reservoir configuration	Base model without reservoir; 3GT is separate option
